Timeline Analysis: Covid-19

Created By: Nurshafizah Binti Mohd Kamil

Timeline Analysis: Covid-19 (Level - Advanced)

- Create a storyboard showing spread of Covid-19 cases in your country or any region (Asia, Europe, BRICS etc) using Tableau, Power BI or SAP
- Use animation, timeline and annotations to create attractive and interactive dashboards and story
- Identify interesting patterns and possible reasons helping Covid-19 spread with basic as well as advanced charts
- Screen-record the completed storyboard along with your audio explaining the charts and giving recommendations.
- Dataset: Daily updated .csv file on https://bit.ly/30d2adi
- Task submission:
 - 1. Create the dashboards and/or storyboard and record it
 - 2. Upload the recording on Youtube, share the link on LinkedIn
 - 3. Submit LinkedIn post link in Task Submission Form when shared
 - 4. Please read FAQs on how to submit the tasks.
